

Our Church Mission: Invested in building the kingdom of God

We believe each person bears the image of the creator God. Our role as part of a Church family is to notice the God in each other, respect our differing experiences, and nurture each other in love and faith.

We aspire to share our resources and “break bread” together, building relationships and providing companionship on our life’s journey.

Our church is a place of acceptance, open to all who wish to enter or participate. We offer help for those who need it and a friendly ear for newcomers. It is a place of transformation and renewal, where we pray together taking the world’s problems to God and taking God’s love out into the community.

We act as the hands and feet of Christ to build a world that is just and compassionate and to honour and protect God’s creation and play our part in upholding the values of the Kingdom of Heaven.

We work in collaboration with others in our community to respond to the needs of local people. Not a church *in* Evesham but a church *for* Evesham.

Some things are being achieved but there is much to be done. We are a work in progress.
